ACT Aerospace Terms and Conditions Rev. 0 2026

Proposal Terms & Conditions

1. **Payment Terms:** Net 30 if no agreed to terms are in place
2. **Quote Validity:** Quote is valid for 90 days from the date of origin (If material quotes are for less this lesser value will determine quote validity).
3. Lead times commence upon ACT acceptance of Purchase Order
4. Shipping is FOB Gunnison, Utah
5. ACTA assumes that existing NDI standards and techniques will be adequate, and no new standards or techniques will be required. Pricing and lead time reflect this assumption.
6. Raw material lead times are volatile and may affect lead times. ACTA will take every action possible to ensure that delivery dates are met, but ACTA cannot be responsible for the lead times of customer-specified, single source long lead materials.
7. Pricing is based on the current engineering provided. Any design or spec changes made after the date of this submittal are subject to price adjustments if necessary. Any resulting price changes are to be submitted to the Buyer for PO revision
8. **Change Order Fee:** Purchase Orders (PO) that receive Change Orders specific to manufacturing process changes that affect form, fit or function, are subject to a minimum fee of \$750. Additionally, if additional NRE is required, an updated NRE Quote will be provided. Change Orders may include but are not limited to: Rev Rolls, Material Changes, Inspection Criteria, Testing Criteria, Dimensional Changes, Coupon Testing or any other meaningful change to the part or manufacturing process. The additional cost beyond \$750 will be based on the expected time requirements to make the engineering change, and any additional manufacturing time required. This fee is not applicable to simple administrative changes, at the discretion of ACTA.

9. **Part Revision Required:** Purchase Orders will not be accepted unless the specific revision is listed on the Purchase Order.
10. If a Revision Rolls after a PO has been accepted, the Rev. Roll will need to be applied at an agreed to cut-in point, or the next purchase order by way of a Change Order. ACTA will not be responsible for parts made to a revision that changed during the production process or is different than what is stated on the PO. Any additional costs that result from the new Rev will be captured and presented to the customer for a change to the unit price and/or NRE.
11. **Small Order Set Up Fee:** Part Number line items on a Purchase Order that are less than \$5,000 may be subject to a \$750 Fee to cover small lot set up. We encourage our customers to increase quantities to avoid this fee.
12. **Minimum Order Quantity:** Small quantity quotes will be derived using a Parent Panel Max Yield quantity, when applicable. Quantity ordered must be in the incremental quantities that the Parent Panel yields, if not, the quantity quoted may be adjusted up to the next full Parent Panel max yield. Additionally, small quantity quotes may be subject to the aforementioned Small Order Set Up Fee.
13. **Excess Material Fee:** When applicable, if a material MOQ is required for the production of the customers' parts, the excess material will be charged to the customer as a separate line-item cost, shown as an Excess Material Fee. The customer will own this excess material and it will be stored at ACT for no more than 6 months after completion of the PO. Material will be dispositioned after 6 months if no follow-on order is received, or arrangement is made between ACT and the material owner.
14. **Raw Material Price Increases:** Due to ongoing pricing volatility, if raw material prices increase significantly at any time during the performance of an order, ACTA reserves the right to adjust pricing accordingly.
